The MSc Nursing Course at MIMS College of Nursing -

Aim of the postgraduate programme in nursing is to prepare graduates to assume responsibilities as Clinical Nurse Specialists, Nurse Practitioners, Consultants, Educators, Researchers and Administrators in a wide variety of professional settings.

On par with the Indian Nursing Council, the college prepares its own curriculum structure to inculcate the Mission of the College- "COMPASSIONATE NURSES FOR A CARING PROFESSION". This mission is integrated in to the vertical and horizontal strands of the curriculum and also hidden in curricular structure to take out the depersonalizing effect of high tech nursing care.

Scientific and technological advancements have created complexity in the field of nursing necessitating advanced educational preparation. To keep pace with the tremendous progress in Medical Science and to meet changing health care needs specialization and research are essential in nursing science. Hence post graduations in the following specialties are required:

1. Medical Surgical Nursing (Sub specialties - Cardio Vascular & Thoracic Nursing, Critical care Nursing, Oncology Nursing, Neurosciences Nursing, Nephro-Urology Nursing, Orthopedic Nursing, GastroEnterology Nursing)
2. Obstetrics and Gynecological Nursing
3. Child Health (Pediatric) Nursing

Programme goal

This course aims to prepare nurses who can make independent decisions in nursing situations, protect the rights of and facilitate individuals and groups in pursuit of help, functioning the hospital, Community nursing services and conduct the research studies in the area of nursing practice. They are also expected to assume the role of teacher, Supervisor, and Manager in a clinical /Public health checking /College of Nursing/School of Nursing.

Philosophy

We, the staff of the College of Nursing, MIMS believe that caring for human being is multifaceted. We believe that each individual is unique and as health care professionals we are obligated to provide holistic care.

It is our belief that holistic nursing is dependent on quality nursing education based on sound educational principles. We recognize formal education as the foundation for practice of professional nursing.

Education is a change in behavior, which best occurs in an organized environment promoting problem solving approach. It is enhanced by incorporating knowledge from the Medical Health, Behavioral, Biological and Physical Sciences in the context of a sequentially planned, organized curriculum and conducive physical facilities for learning.

We recognize that nature of nursing is such that a substantial portion of students learning is acquired in the clinical area and it is interdependent with allied professions and occupation to promote and maintain the nursing standards.

We believe in the individuality of each student. We accept that each individual varies in her/ his capabilities, interest, Cognitive abilities and skills. Therefore, we accept that teachers have the responsibility to provide for continued development of each student as an individual, citizen as well as a nurse.

We accept our responsibilities in guiding students to develop pride in upholding and promoting the nursing profession.

The Faculty of Nursing believes that Nursing, as a health science require prompt updating of knowledge and skills in the areas of clinical specialty to render quality services and maintain collaboration with other health professionals.

Postgraduate programme prepare nurses to assume leadership positions in Nursing and allied health fields as specialists, practitioners, consultants, educators, counselors, administrators and researchers in a variety of settings in meeting the health care priorities and the changing needs of the society.

It encourages accountability and commitment in continuing education and also contributes to the body of knowledge in nursing through guided and independent research studies and facilitates evidence – based practice. It fosters decision making, critical thinking and creative work.

Programme objectives

On completion of the 2 year M.Sc Nursing programme, the graduates will be able to:-

1. Apply the concepts, theories and principles of nursing science.
2. Demonstrate competencies in nursing practice.
3. Practice as Clinical Nurse Specialist.
4. Establish collaborative relationship with the members of other disciplines.
5. Assume leadership in various care settings.
6. Participate in health planning, implementation and evaluation at different levels of health care system.
7. Function as effective nurse educators and nurse managers.
8. Conduct independent nursing research and utilize the research findings in nursing practice and education.
9. Critically evaluate various educational programmes in nursing.
10. Demonstrate interest and positive attitude in continuing education for personal and professional growth.
